Godwin Tom is a visionary executive building the infrastructure for the African Creative Economy.

With over two decades of experience, Godwin has shaped the careers of the continent's most iconic artists, including **MI Abaga, Wizkid, and Wande Coal**. currently serving as the **Managing Director of Sony Music Publishing West Africa**, he is at the forefront of protecting and monetizing African intellectual property.

Transitioning from talent management to "Nation Building," he founded the **Creative Business Academy for Africa** to train the next generation of executives and strategists. Godwin operates at the intersection of talent, policy, and business, advocating for a structured ecosystem where African creativity can be protected, monetized, and exported sustainably.
